Such requests must contain written instructions from the student's physician. When a parent or guardian makes such a request, a full release from responsibilities pertaining to the administration and consequences of such medication must also be presented to the superintendent by the student's parent or guardian.

## **COMMUNICABLE DISEASES**

Students who are afflicted with communicable, contagious and/or infectious disease may be excluded from school attendance. The board of education recognizes the need and right of all children to receive free and appropriate education. The board further recognizes its responsibility to provide a healthy environment for all students and school employees. A complete copy of the school's communicable disease policy is available for review by students and parents in the superintendent's office.

## **ATTENDANCE POLICY(Adopted 8-13-08)**

It is important for both students and parents to understand that students miss an essential portion of their education when they are absent from classes. The entire process of education requires a regular continuity of instruction, classroom participation, learning experiences, and individual study in order to reach the goal of maximum educational benefits for each student. While it is true that written work can be completed despite a student's absence from class, class instruction and presentation, discussions, audio-visual presentations and student-teacher interaction can never be made up for an individual student who has missed them. This is the essence of schooling. Furthermore, South Dakota statutes require the Board of Education to enforce definite standards of attendance with few valid excuses for absence.

With these educational and legal requirements in mind, the following requirements for attendance covering all regularly enrolled students in grades seven through twelve will be enforced:

- A. The Irene-Wakonda School District will excuse any absence that the student's parent is aware of and approves. However, after the fifth absence per semester, all absences (excused or unexcused unless categorized in our \*extenuating circumstances) will have to be made up. This means the student must make up the time and work missed before we will calculate the student's grades, grade point average, qualify them for honor roll, grant credit, and etc. Also, any extenuating circumstances absence will not be counted towards the five absences per semester policy.

### **\*Extenuating Circumstances:**

1. Any absence for a medical reason would not be counted as long as the student brought an appointment notice or brought something from the doctor that says he/she was seen that day.
  2. Time that a student spends in the hospital as long as notification was received by the attending physician.
  3. Time that a student must spend at home for a period of recovery from an illness. This would have to be doctor ordered with the time specified.
  4. Bereavement in the student's immediate family.
- B. Student absence from school without knowledge of parents or for an invalid reason will be an unexcused absence. With any unexcused absence, the student is required to make up all work and time missed after school and during Friday Detention.

- C. After an absence, a student must report to the office to receive an admit slip before returning to class. If parent or guardian has provided proper notification of the absence, and the absence has been excused, the student will be permitted to make up all work and receive full credit. Two days for each day of absence will be allowed for completion of this work.
- D. Students planning to be absent from classes as the result of a school sponsored activity or field trip must have work completed in advance. Under these circumstances students will not be recorded as absent from school.
- E. A student shall not leave school during the school day without reporting to the principal, guidance counselor, or superintendent's office. Failure to report shall result in being charged with an unexcused absence and a violation of skipping class/leaving school without permission.
- F. The following process will be adhered to covering all absences excluding absences that are categorized under extenuating circumstances:
  - 1. After a student has been absent from school for three days during a semester, a letter will be sent to notify the parents of the number of absences and as a reminder that after five absences the time missed for any portions of the day will have to be made up.
  - 2. After a student has been absent from school for five days or the same class for five periods during a semester, he or she will have to make up the work and the time missed for any portion of the day missed after five days or five class periods. If a student is not making progress towards making up the time, he or she will be assigned times to make up the time by the Principal.
    - a. This can be before school, after school, or during Friday detention. If a student has not made up his or her hours by the end of the semester, the following will happen:
      - 1. No credit will be granted for any class for that semester
      - 2. Your GPA will not be figured.
      - 3. You will not be on any Honor Roll.
    - b. It is your responsibility to:
      - 1. Make sure you let the teacher know you are making up the time.
      - 2. Be on time when meeting with the teacher.
      - 3. Get the teacher's approval at the end of the make-up period.
    - c. Rules concerning make up time:
      - 1. Normal make up time is scheduled for either 7:45-8:15 a.m. or 3:32-4:30 p.m. If you wish to stay at a time other than this, you may make arrangements with your teachers or the Principal.
      - 2. Make up time will be scheduled with the staff during the school term. If you desire to make up time with a teacher other than the one assigned, you must talk to the Principal.
      - 3. You must be working on academic subjects during the make-up time.
      - 4. You may make up time during Friday Detention if there is Friday Detention scheduled. If you do this, you need to notify the Friday Detention Supervisor.
- G. Students who are absent from school due to illness or an unexcused absence will **not** be permitted to participate in, or attend, a school activity (including practice) during that day. Students who are in attendance by 12:00 and remain in school throughout the remainder of the day will be permitted to participate in school activities. Exceptions to this attendance rule may be made for medical appointments, family emergencies and other **excused** absences arranged in advance.

## TARDINESS

A student tardy for the school day must report to the office for an admit slip to enter class or study hall. If a student is tardy at any other time, the student is to report to the regular teacher, who has the option of requesting an admit slip signed by the principal. A student who reports to class more than twenty (20) minutes tardy will be counted absent. Any unexcused tardy is a mandatory after school detention from 3:35 – 4:15 on the day the tardy occurs. Refer to the 7-12 discipline grid in reference to the consequences for violations of habitual unexcused tardies.

## **STUDY HALLS**

The following rules will be observed in all study halls:

1. All students must be in their assigned seats when the bell rings.
2. Slips for signing out should be presented to the study hall teacher after roll has been taken.
3. Permission may be granted to go to the bathroom but not to the lockers.
4. Everyone who signs out must sign in again upon return before the end of the class period.
5. Study halls should be kept quiet. Permission is required for speaking.
6. Study hall teachers may establish additional rules if they deem necessary.

## **TELEPHONE USE**

Students will be permitted to use the telephone for non-emergency calls only before school, during lunch break, and after school. Permission must be obtained before using the phone. Students will use the telephone located by the office. Messages will be posted by the secretaries' office window. The students are responsible to check for messages. Emergency phone calls will be delivered to the student immediately.

## **POP, CANDY AND SNACKS**

To use these resources, all students must sign and return this form, and those under age 18 must obtain parental permission. Parents, please read and complete this document carefully, review its contents with your son/daughter, and sign and initial where appropriate. Any questions or concerns about this permission form or any aspect of the computer network should be referred to your school's Technology Coordinator. A copy of Board policy regarding student access to networked information resources and this document are available on the Irene-Wakonda School District web site, [www.irene-wakonda.k12.sd.us](http://www.irene-wakonda.k12.sd.us).

### **General Network Use**

The network is provided for students to conduct research, complete assignments, and communicate with others. Access to network services is given to students who agree to act in a considerate and responsible manner. Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Access is a privilege - not a right. As such, general school rules for behavior and communications apply and users must comply with district standards and honor the agreements they have signed. Beyond the clarification of such standards, the district is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.

Network storage areas may be treated like school lockers. Network administrators may review files and communications(email) to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.

### **Internet/World Wide Web/E-mail Access**

Access to the Internet and e-mail will enable students to use thousands of libraries and databases. Within reason, freedom of speech and access to information will be honored. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. Filtering software is in use, but no filtering system is capable of blocking 100% of the inappropriate material available on the Internet. We believe that the benefits to

students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Irene-Wakonda Public Schools support and respect each family's right to decide whether or not to apply for access (see over).

Parents/guardians, your daughter's or son's work may be considered for publication on the World Wide Web, specifically on his/her school's web site. Such publishing requires parent/guardian permission. By signing the parent signature sheet in the back of this handbook you are giving permission for such publications. Any acknowledgement will be by using the student's first name only. Signing the parent signature sheet will also grant the student to use networked resources. The activities listed below are not permitted:

- Sending or displaying offensive messages or pictures
- Using obscene language
- Giving personal information, such as complete name, phone number, address or identifiable photo, without permission from teacher and parent or guardian
- Harassing, insulting or attacking others
- Damaging or modifying computers, computer systems or computer networks
- Violating copyright laws
- Using others' passwords
- Trespassing in others' folders, work or files
- Intentionally wasting limited resources
- Employing the network for commercial purposes, financial gain, or fraud.
- Downloading software to any computer without prior consent of the Technology Coordinator.
- Use of any software or hardware to gain access to information outside a users set of privileges ("hacking" software, network sniffers, etc.)

Violations may result in a loss of access as well as other disciplinary or legal action. (Board policy and procedures on student rights and responsibilities are outlined in the student handbook.)
